

Next Generation Connectivity.

5G Connectivity

5G is the new 5th generation global wireless standard, is significantly faster, delivering multi-Gigabit-per-second (Gbps) peak data rates and 100+ Megabits-per-second (Mbps) average data rates. A 10X increase over 4G.

WiFi6 Technology

WiFi 6 allows more users and devices to connect to the network at the same time without impacting speed or reliability so everyone can enjoy HD streaming, real-time gaming, and video calling all at once.

Optimal Range

At home or on the go, High-performance antennas provide best-in-class Wi-Fi performance and coverage indoors and outdoors for all your devices.

Features

- Connectivity for up to 20 Devices
- WiFi 6 Dual Band
- Supports International Bands
- Power-Bank Feature Allows Charging to External Devices
- 2.4-inch TFT Color Display
- Enhanced Security
- Remote Management
- Portable Compact Design

In The Box

- RG2100 Mobile Hotspot Router
- USB Type C Cable
- Power Adapter
- 5,000mAh Rechargeable battery
- Quick Start Guide

Specs

- Qualcomm SDX69
- CAT 19
- 1 GB Memory
- 5000mAH, Power Bank, Li-Polymer, QC 3.0
