

# RELIABLE 4G LTE CONNECTIVITY

## 4G LTE

Create your own Wi-Fi network to connect up to 15 Wi-Fi enabled devices at blazing fast 4G LTE speed at home or on the go. 4G LTE Cat 4 up to 150Mbps DL (downlink) and 50 Mbps UL (uplink)

## Wi-Fi 5 Capacity

Concurrent 2.4GHz and 5GHz operating modes for fast, reliable, broadband speed Wi-Fi connections. Enjoy simultaneous use of your laptop, tablet, gaming console, and other internet devices on your terms.

## Optimal Range

At home or on the go, High-performance antennas provide best-in-class Wi-Fi performance and coverage indoors and outdoors for all your devices.

## Features

- USB-C Data Connection Tethering
- Wi-Fi 5 Dual Band
- 1.3" OLED Display
- Portable
- Compact Design
- Backup & Restore Configurations
- Rechargeable 3000mAh Lithium-ion battery
- Connect Up to 15 Devices

## In The Box

- RT410 4G Mobile Hotspot
- USB Type C Power Adaptor
- 3,000mAh Rechargeable battery
- Quick Start Guide

## Specs

- Qualcomm MDM9207-0
- CAT 4, 2x2 MIMO
- 1- 4FF UICC Slot
- 1- USB C port

# 4GLTE Remote Management Platform

Enterprise application to manage every router / hotspot remotely. Organization management, Device Management and Access management. Reports of data usage, connectivity, location, signal strength, and Alerts.

## Features

- Easy Integration with Various CIPA Compliant Content Filtering Partners
- Manage SSIDs & Passwords
- Manage Number of Connections
- Manage Time of Day Access
- Group Devices & Apply Policies
- Disable Factory Reset
- Control Displays
- Control Local Interfaces (USB, Wi-Fi)
- Enable & Set MAC ID Filtering
- IP Port Forwarding
- Allow or Black IP Ports
- Custom or Static DNS Support
- Firewall for IPv4 and IPv6
- View Data Usage & Reporting
- Utilize Interactive Dashboards

## Control and Access through 3rd Party Service Provider
