

Mission Telecom Launches Next-Generation 5G Mobile Connectivity Solution for Nonprofits, Schools, and Libraries

Englewood, CO — [Mission Telecom](#), a nonprofit telecommunications provider dedicated to bridging the digital divide, today announced the launch of a new 5G mobile connectivity solution—[Inseego MiFi Pro M4 \(5G\)](#) mobile hotspot for just \$179 USD. The reliable, secure mobile router delivers high-speed internet to nonprofits, schools, and libraries, with pricing starting as low as [\\$5.99 per line](#) (100 GB) for schools.

Inseego's advanced 5G hardware enables high-speed connectivity, enhanced security, and cloud-based device management, allowing organizations to stay connected wherever they operate, from classrooms and libraries to mobile clinics and disaster response environments. It also supports long-range connectivity for up to 50 simultaneous devices.

"We are now in the middle innings of the 5G era, and thankfully devices are getting more advanced and more affordable," said Mark Colwell, Executive Director at Mission Telecom. "Mission Telecom is proud to bring the best technology with the best pricing to our partners to help unlock new opportunities for nonprofits, schools, and libraries to take advantage of Mission Telecom's ultra-fast 5G network access."

Connectivity that Powers Real-World Impact

The new solution addresses critical connectivity challenges, including:

- Closing the homework gap and expanding student access
- Expanding and sustaining library hotspot lending programs
- Enabling telehealth and mobile clinics
- Powering disaster response and recovery efforts
- Supporting remote nonprofit teams

Last month, Mission Telecom announced a new [limited-time wireless offer](#) designed specifically for schools that enroll by June 30, with prices starting at \$5.99 a month for 100 GB and \$7.99 a month for an unlimited plan.
